December 2020

Dear Parents and Carers,

COVID Update

As we approach the end of the term next week, we want to do all we can to reduce the risk of transmission if there were to be a positive Coronavirus case in the community. As a school, we want your winter break to be as normal as possible under the circumstances allowing that connection with loved ones.

Therefore please see below for a refresher, outlined previously, of the key steps you can all take to help at the '**Start and End**' of the School day to support.

1. Please come to school at the **correct time and to the allocated gate** this enabled us to suitably control movement.
2. Please keep your **children close** by not allowing them to move freely around the playground, this makes a huge difference.
3. Please wear a **face mask / covering** on the school site. This will support protecting all those around you in our community.
4. Please **keep your distance** from others and when speaking to school staff continue to be mindful of staying 2 metres apart.

As we have outlined above, these simple guidelines really do make a difference and we are extremely grateful for your on-going co-operation.

Yours faithfully,

Mr Clark
