

House Points @ RFA

Dear Parents/Carers,

We are currently in the process of relaunching the House Points system across the school. In line with this we are also changing two of the house colours, please see the table below:

The house system is a school initiative so pupils can be part of a shared community and have the chance to work with their peers towards a common goal. The house system also allows pupils to engage in house team competitions e.g. Sports Day/Spelling Bee. This will see pupils collecting points for taking part in events and representing their house. Pupils will also be able to collect points when they show they are able to follow the school rules and adhere to our values.

We have set up token counters around the school and each week the points will be collected and recorded. We believe this will give pupils the incentive to work harder whilst also improving conduct in and around the school.

The PE kit colours will also be changing to coincide with the logo colour change. We are in talks with M&S at the moment to change the house colours available on their website; please be aware they are not yet available to purchase. You will not need to purchase the new PE t-shirts unless your child grows out of their old one or you have a child starting in September 2021.

Best Wishes,

Miss Smith

Deputy Head
